- 6.3 The performance Security Money will be returned back to the tenderer without interest after the expiry of the warranty period i.e. two years after the date of installation.
- 6.4 Security money will be forfeited if there is any violation of the tender terms and conditions.

#### **TENDER CONDITIONS :**

- 7.1 The details of the medical equipment with specifications are mentioned in **Section-X. The firm must clearly mention their specification, special features, upgraded version (if any), detail technical catalogue of the offered model in their tender.**
- 7.2 Tenders should be typewritten or computerized and every correction in the tender should invariably be attested with signature by the tenderer with date before submission, failing which the tender will be ineligible for further consideration.
- 7.3 The purchaser shall be responsible only after delivery and due verification, installation and commissioning of the equipment.
- 7.4 The rate per unit shall not vary with the quantum of order placed for destination point.
- 7.5 If there is difference between figures & words, words will be taken into consideration.
- 7.6 In the event of the date being declared as a holiday by Govt. of Odisha, the due date of sale, submission of bids and opening of bids will be the following working day at the scheduled place & time.
- 7.7 The price quoted by the tenderers shall not in any case, exceed the controlled price, if any, fixed by the Central / State Government and the Maximum Retail Price (MRP). The purchaser, at his discretion, will in such case, exercise the right of revising the price at any stage so as to confirm to the controlled price or MRP as the case may be.
- 7.8 The rate quoted and accepted will be binding on the tenderer for a period of **one year** from the date of approval of the rate contract and on no accounts; any increase in the price will be entertained till the completion of this tender period.
- 7.9 No tenderer shall be allowed at any time on any ground whatsoever to claim revision of or modification in the rate quoted by him. Clerical error / typographical error, etc. committed by the tenderers in the tender forms shall not be considered after opening of tenders. Conditions such as “ **SUBJECT TO AVAILABILITY**”/“**SUPPLIES WILL BE MADE AS AND WHEN SUPPLIES ARE RECEIVED**” etc., will not be considered under any circumstance and the tenders of those who have given such conditions shall be treated as incomplete and for that reason, shall be rejected.
- 7.10 If at any time during the period of rate contract, the price of tendered item is reduced or brought down by any law or act of the Central or State Government or the tenderer, the tenderer shall be morally and statutorily bound to inform the purchaser immediately about such reduction in the contracted price. The purchaser is

empowered to unilaterally effect such reduction in rate, in case the tenderer fails to notify or fails to agree for such reduction of rate.

- 7.11 Approved rate with terms, conditions & the quoted price of the tender shall remain valid for a period of **12 months** from the date of approval.
- 7.12 If the relevant documents / certificates which are required to be furnished along with the tender are written in language other than English, the tendering firm shall furnish English version of such documents.
- 7.13 If any information or documents furnished by the tenderer with the tender papers are found to be misleading or incorrect at any stage the tender of the relevant items in the approved list shall be cancelled and steps will be taken to blacklist the said firm for three (3) years.
- 7.14 Rate should be quoted in Indian Currency, both in words and figures against each item as the payments will be made in Indian currencies only The tenderer shall not quote his own rate for any item other than the item specified in the list.
- 7.15 Both Cover-A and Cover-B should have an **index and page number** of all the documents submitted inside that cover.
- 7.16 The requirement of items may increase or decrease depending on the situation.

#### **PACKAGING :**

- 8.1 All the packaging should be New. The supplier shall provide such packaging of the goods as is required to prevent their damage or deterioration during transit to their final destination. The packaging shall be sufficient to withstand without any limitation including rough handling during transit, exposure to extreme temperature, salt and precipitation during transit and upon storage.

#### **TRAINING & OPERATIONAL MANUAL:**

- 9.1 The firm / supplier will provide hands on training to two faculties and two technicians in his own cost for operating / handling the medical equipment(s) at the time of installation of equipment.
- 9.2 The supplier / firm will provide the operation / maintenance manuals of all equipments to the purchaser at the time of installation.

#### **LABELLING :**

- 10.1 The equipment supplied must be properly labeled with Sl. No., Model Name, Make & year of Manufacture.

#### **ACCEPTANCE OF TENDER AND SUPPLY CONDITIONS:**

- 11.1 The Purchaser reserves the right to reject the tenders or to accept the tenders for the supply of the item tendered without assigning any reason thereof.
- 11.2 The Purchaser will be at liberty to terminate the contract either wholly or in part without assigning any reasons thereof. The tenderers will not be entitled to any compensation whatsoever for such termination.
- 11.3 The **supply should be completed within 30 days** from the date of issue of purchase order unless otherwise specified. If no supply is received even after 30 days or 58 days with liquidated damage from the date of issue of the purchase orders , such orders will stand cancelled automatically without further notice. Penalties shall also thereafter be applied to the tenderer as specified in clause. The

approved firm shall also suffer forfeiture of the EMD and Performance Security Deposit.

- 11.4 The tender inviting authority or his authorised representative (s) has the right to inspect the factory of those company who have quoted for the tender, before accepting the rate quoted by them or before releasing any purchase order (s) or at any point of time during the validity period of tender and has also the right to reject the tender or terminate / cancel the orders issued or not to reorder based on the facts brought out during such inspections.
- 11.5 If the supplier fails to complete the supply within the extended period, i.e. 58 days after being allowed by the purchaser, no further purchase order will be placed to the firm for the said item including forfeiture of the Performance security and the concerned firm will be blacklisted for two (2) years from the date of issue of letter for the said item.

#### **TERMS OF PAYMENT :**

- 12.1 Payments as mentioned above will only be made after keeping the **performance security deposit** from the supplier, if they have not deposited the same before. Payment will only be made after ensuring signing of the Agreement, undertaking and handing over of warranty papers of equipment and turnkey jobs by the supplier to the purchaser.
- 12.2 No claims shall be made against the purchaser in respect of interest on earnest money deposit or performance security deposit or any delayed payment or any other deposit.
- 12.3 Payments in shape of Draft / Pay Order will preferably be dispatched to the supplier e-payment / on-line transfer.
- 12.4 In the event of any dispute arising out of the tender, such disputes would be subject to the jurisdiction of the Civil Court of the concerned District or High Court of Odisha.

#### **INSPECTION/TESTING :**

- 13.1 The selected supplier shall have to arrange for demonstration of the equipment at the supply point. The purchaser or its nominated representative(s) shall inspect and test the equipments at the supply point to check their conformity to the technical specifications and other details incorporated in the contract.

**SPECIFICATION FOR FINGERPRINT TIME ATTENDANCE DEVICE WITH FACE RECOGNITION.**

1. It should have minimum 6" cm TFT screen.
2. It should have High resolution infrared HD Camera.
3. It should have 32 bit CPU.
4. It should have in-built battery backup.
5. It should have minimum attendance record 100000.
6. It should have verification mode Finger print, Face recognition, ID card & password.
7. It should have finger touch sensor.
8. It should have voice output.
9. It should have working Humidity 20%-80%.
10. It should have working Temperature 0°C -50°C.
11. It should be operate 12V DC.
12. It should be freely switch between LAN & Web.

Sl. No.	Items	Qty.	Specification
<b>A 1</b>	Adult human articulated skeleton with hanging facility in a glass cupboard with locking facility.	2	Life size articulated adult plastic skeleton is ideal for teaching the basics of human anatomy. The arms and legs are removable for study. Features nerve branches. Vertebral artery and herniated lumbar disc. Skull includes removable lower teeth. Mounted on a calvarium, suture lines and 3 removable lower teeth. Mounted on a sturdy 16" wide base. Made of washable and unbreakable PVC plastic. Size- 5 ft.
2	Full set of dis-articulated adult human skeleton.	2	Life size disarticulated skeleton will encourage students to learn various bones of an Adult human. It is a visual aid for students, doctors, nurses or anyone interested in human skeleton.
<b>B</b>	<b>MODELS</b>		
1	Full size human body showing all muscles and arteries	2	Life size articulated adult plastic skeleton is ideal for teaching the basics of human anatomy. The arms and legs are removable for study. Features nerve branches. Vertebral artery and herniated lumbar disc. Skull includes removable lower teeth. Mounted on a calvarium, suture lines and 3 removable lower teeth. Mounted on a sturdy 16" wide base. Made of washable and unbreakable PVC plastic. Size Approx 86 Cm
2	Human torso - male - female	2	This outstanding torso features an exposed spine with removable vertebra and spinal cord segments, a female breast plate and interchangeable male and female genitalia. The female organs include a fetus in the womb. Dissectible into 23 parts: torso, female breast plate, head eyeball, brain, vertebra spinal nerves, lung (2 parts), heart (2 parts), liver, kidney, stomach (2 parts), intestines (4 parts), male genitalia (2 parts), female genitalia with fetus (3 parts). Made of PVC plastic. Mounted on base. Size: 23 x 41 x 89 CM
3	Skin cross section	2	A greatly enlarged (105 times) cross sectional view of the human skin showing three layers and a close-up view of a hair follicle, sweat gland, fatty tissue and more. Front, side and back view. Made of PVC plastic. Mounted on base.
4	Heart and large blood vessels	2	This model shows external features and internal structures of heart and its relation between large blood vessels. Dissectible into 5 parts, 3 times enlarged. Size Approx 58x45x50cm
5	Heart with detachable parts on a stand	2	This life-size heart model excellent for patient education or elementary science classes. Anatomically accurate and great for learning basic external and internal anatomy of the heart. Dissectible into 2 parts. Made of PVC and mounted on stand. Size : 15x8x9cm.
6	Eye with different sections	2	This model shows eyeball with optic nerves and muscles in its natural position in the bony orbit. Dessectible into 10 part. 3 times enlarged.
7	Ear with different sections	2	A giant model of the ear, shows the three main structural parts of the hearing organ (external ear, middle ear, internal ear) and the position of the equilibrium organ of human body. 400X275X90mm <b>External Ear</b> : Showing the shape of the auricle and the primary features of the external auditory meatus. <b>Middle Ear</b> ; Showing the tympanic membrane, the three auditory ossicles (hammer, anvil, stirrup) and the eustachian tube. <b>Internal Ear</b> : Showing the vestibule, cochlea and the three semicircular canals of the osseous labyrinth. Made of PVC plastic. Mounted on plastic base. 5 times enlarged. Dissected into 6 parts.

Sl. No.	Items	Qty.	Specification
8	Human brain with spinal cord	2	This model shows the interior parts of the mouth cavity and pharynx with network of vessels and trigeminal nerves. Size: 40 cm
9	Lungs and trachea	2	This model presents 10 segments in the right lung 8 in the left. The distributions of the bronchial tree can be observed through the transparent lungs. <b>Right Lung</b> : right upper lobe (3 segments), right middle lobe (2 segments), right inferior lobe (5 segments). <b>Left Lung</b> : left upper lobe (4 segments), left inferior lobe (4 segments). Distribution of the bronchial tree : right bronchus, left bronchus. <b>Hilus of lung.</b> The lungs are made of transparent plastic. The trachea and bronchial tree made of PVC plastic. Enlarged 2 times.
10	Larynx	2	A functional model that demonstrates movements of the epiglottis and cartilages in the voice box. It helps the students to require an understanding of the morphology and structure of the respiratory tract and phonetic organ. On base. 3 times enlarged. 3-parts dissectible. Size: 2.5
11	Digestive system Stomach Small intestine Large intestine	2	This model shows the morphology of the stomach in a moderate distended state. With the longitudinal section, the model shows the structures of the gastric folds, pyloric sphincter muscles, gastric mucosa and the transitional mucosa of the gastric-esophagus. Made of hard plastic and magnified 2 times the natural size. <b>Size: 79x27x8.5 cm – Weight: Approx 4.5 kg</b>
12	Female reproductive system Uterus on stand Ovaries Microscopic structure Macroscopic structure	2	This model serves as a teaching model for teaching to teach the female urogenital system in schools and colleges. The model shows kidney, ureters, urinary bladder, uterus, accessories of uterus, vagina, ovary membrane, ligaments, uterus ligament and artery etc. Made of PVC plastic.
13	Male reproductive structure	2	This model serves as a teaching model for teaching to teach the female urogenital system in schools and colleges. The model shows kidney, ureters, urinary bladder, uterus, accessories of uterus, vagina, ovary membrane, ligaments, uterus ligament and artery etc. Made of PVC plastic.
14	Urinary system Kidney-microscopic structure-macroscopic structure	2	This is intended for schools and colleges as a visual aid in teaching physiology and hygiene to help the students to understand the external features of the urogenital system and the internal structures of the kidney, urinary bladder, penis and testicle. Made of soft PVC plastic.
15	Joints and ligament Wrist, Ankle Elbow, Knee ,Shoulder & Hip	2	SHOULDER JOINT LIFE SIZE WITH MUSCLES An instructional model to illustrate abduction, anteversion, retroversion and internal/external rotation. Includes flexible, artificial ligaments. Made of PVC plastic. On Stand. HIP JOINT LIFE SIZE WITH MUSCLES Demonstrates anteversion, retroversion, abduction and internal/external rotation. Include flexible, artificial ligaments. Made of PVC plastic. On Stand. KNEE JOINT LIFE SIZE WITH MUSCLES Demonstrates flexion, extension and internal/external rotation. Include flexible, artificial ligaments. Made of PVC plastic. On Stand. ELBOW JOINT LIFE SIZE WITH MUSCLES Demonstrates flexion, extension and internal/external rotation of the radius. Include flexible, artificial ligaments. Made of PVC plastic. On Stand. FOOT JOINT LIFE SIZE Demonstrates all of foot functionality and the external anatomical structures. Made of PVC plastic. On stand. HAND JOINT LIFE SIZE Demonstrates all of hand functionality and the external anatomical structures. Made of PVC plastic. On Stand.
16	Teeth	2	This model is to serve for demonstration in mouth protection and relative clinical teaching, Consists of gum, teeth, tongue and palate. It demonstrates teeth form and oral cavity cleaning and protection. Number Of Teeth: 32
